ABOUT OUR COMPANY

Janome is proud to be among the largest manufacturers of domestic sewing machines in the World. Founded in 1921, Janome has a long and accomplished heritage of building high quality, innovative products that provide a reliable and pleasurable sewing experience for Sewists around the world. Our products are distributed in over 100 countries and are manufactured in Janome owned facilities in Japan, Taiwan and Thailand.

Janome has been a trail blazer for the sewing industry. Our company established the first-ever sewing machine research Centre in 1979, we were the first to develop a computerized sewing machine for home use, the Memory 7. This was followed by the Memory Craft 8000 in 1990, offering for the first time ever professional style embroidery for the home use market. The Sewing industry was again changed with the introduction of the memory Craft 6500 Professional, a high speed, all metal flatbed sewing machine offering unheard of sewing space and convenience without the large size and bulkiness of an industrial sewing machine. We followed this model up with numerous generations of even larger sewing space and faster performance resulting in the Continental M7 launched in 2019. And then in 2022 Janome introduced the Continental M17 sewing, quilting and embroidery machine with milestones that once again, led the way in home sewing.

We take our history very seriously. Everyday, highly experienced designers assess the sewing needs of the entire range of Janome customers: from the budding sewist to the highly skilled, expert embroiderer. Our mission is to constantly find new ways to improve the features and performance of the Janome line-up to meet their ever-evolving needs.

From our top of the line flagship machines to our everyday value models, you can rely on Janome's enduring commitment to innovative design, unparalleled reliability and consistent quality. We stand behind every one of our products and with the support of our network of trained and authorized dealers, we strive to provide each of our Janome users with the happy and satisfying experience of making the most of what they love.
