

HD-5000

HEAVY DUTY

Solid. Reliable. Versatile.

Built to last, the HD-5000 is an all around performer for all your home sewing needs.

Made with a single-cast aluminum frame, the HD-5000 is a heavy duty mechanical workhorse that provides smooth and quiet operation through multiple layers of fabric. 18 stitches and a one-step buttonhole provide the foundation and a seven piece feed dog maintains a taut surface for beautiful stitches. Thoughtful user conveniences make sewing intuitive and fun: easy access top and free arm storage, one-handed needle threader, snap-on presser feet, one-touch bobbin cover, flip chart and quick stitch selection are just the beginning.
