

HOBBY PATCHES

Created by Sew4Home

Sew and show your favourite past times while getting the most from your Janome machine with these fun, colourful Hobby Patches! Any Janome machine with a minimum 5 x 5" hoop will do! (CM17, MC15000, MC9850, MC550E or other models)

Project Steps:

It should be hooped drum tight. When hooping this stabilizer, we found it helpful to use the magnetic clamps on the sides of the hoop.

Materials List:

- A Janome embroidery capable machine.
- 5 x 5" hoop or larger (S4H used the RE18 Hoop).
- We recommend Madeira Avalon Ultra which provides the necessary firmness, yet washes away when the project is finished.
- For the best results we recommend Madeira, Iris or our exclusive Janome brand embroidery thread.

Sew4Home provides inspiring tutorials that are expertly designed and have easy to understand instructions with gorgeous photography. Get to know Sew4Home better visit Sew4Home.com

Over the top of the stabilizer, place a rectangle of white craft felt, cut to approximately 6" x 9".

Attach the hoop to your Janome machine.

Use the Baste function to adhere the felt in position.

Transfer your chosen Hobby Patch embroidery design to your machine. Set up the embroidery machine for professional style embroidery, with a FULL bobbin of

bobbin thread and embroidery thread in the needle. A color chart for each design is provided in a separate PDF.

Continue stitching through each color change. Each design takes about an hour (or more) to stitch out. Stitch at a moderate speed (600 spm) for the best results.

With the full felt rectangle in place, the machine will stop when the interior design is finished, however, the border remains to be done.

Remove the hoop from the machine and, using tiny scissors, cut away the excess felt – staying close to the stitched outline.

Replace the hoop in the machine and re-thread to stitch the border.

Your patch is complete!

Pop the patch from the hoop, remove the excess stabilizer, and the patch is ready to be applied to your favorite garment, tote, and more!
